

Lara Cantarero, PhD

Dr. Lara Cantarero is a Junior Principal Investigator at the Institut de Recerca Sant Joan de Déu (IRSJD) in Barcelona, Spain. Since 2016, her research has focused on elucidating the cellular and molecular mechanisms underlying CMT neuropathy, with a particular focus on axonal forms. Her work aims to advance the understanding of disease pathophysiology and to identify novel therapeutic targets. She currently leads preclinical studies using murine models and patient-derived cellular systems to translate mechanistic insights into potential therapeutic strategies.
